

**Cookie Composition with Cocoyam (*Xanthosoma sagittifolium* (L.)  
*Schott*) Flour and Desiccated Coconut**

**ABSTRACT OF THE DISCLOSURE**

5        The utility model relates to a cookie composition that includes cocoyam  
(*Xanthosoma sagittifolium* (L.) *Schott*) flour and desiccated coconut as  
supplemental ingredients to improve nutritional quality. The formulation  
consists of all-purpose flour, cocoyam flour, desiccated coconut, egg, white  
sugar, baking powder, and softened butter, all by weight. This composition  
10    addresses the limited utilization of nutrient-rich root crops like cocoyam in  
baked goods, while maintaining desirable sensory properties, suitable for  
production in local bakeries, small-scale processors, and pasalubong centers.
